

Telemetría de Dynamics 365 Business Central (Power BI)

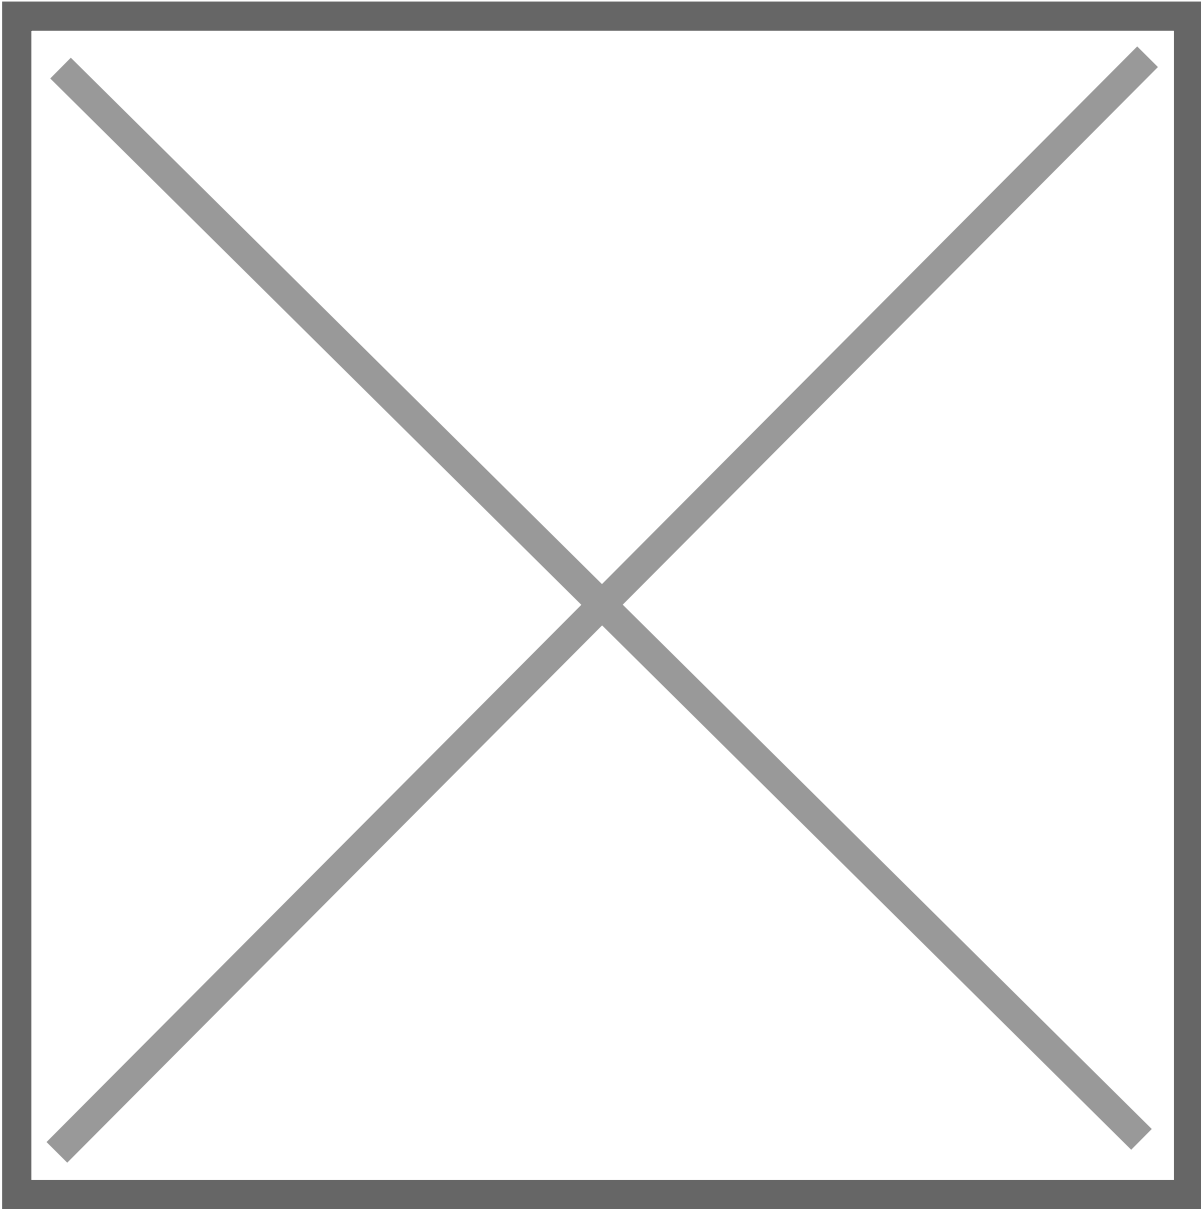

Artículo original: [Dynamics 365 Business Central: User Login History \(Register Time and Sign-in logs\)](#)

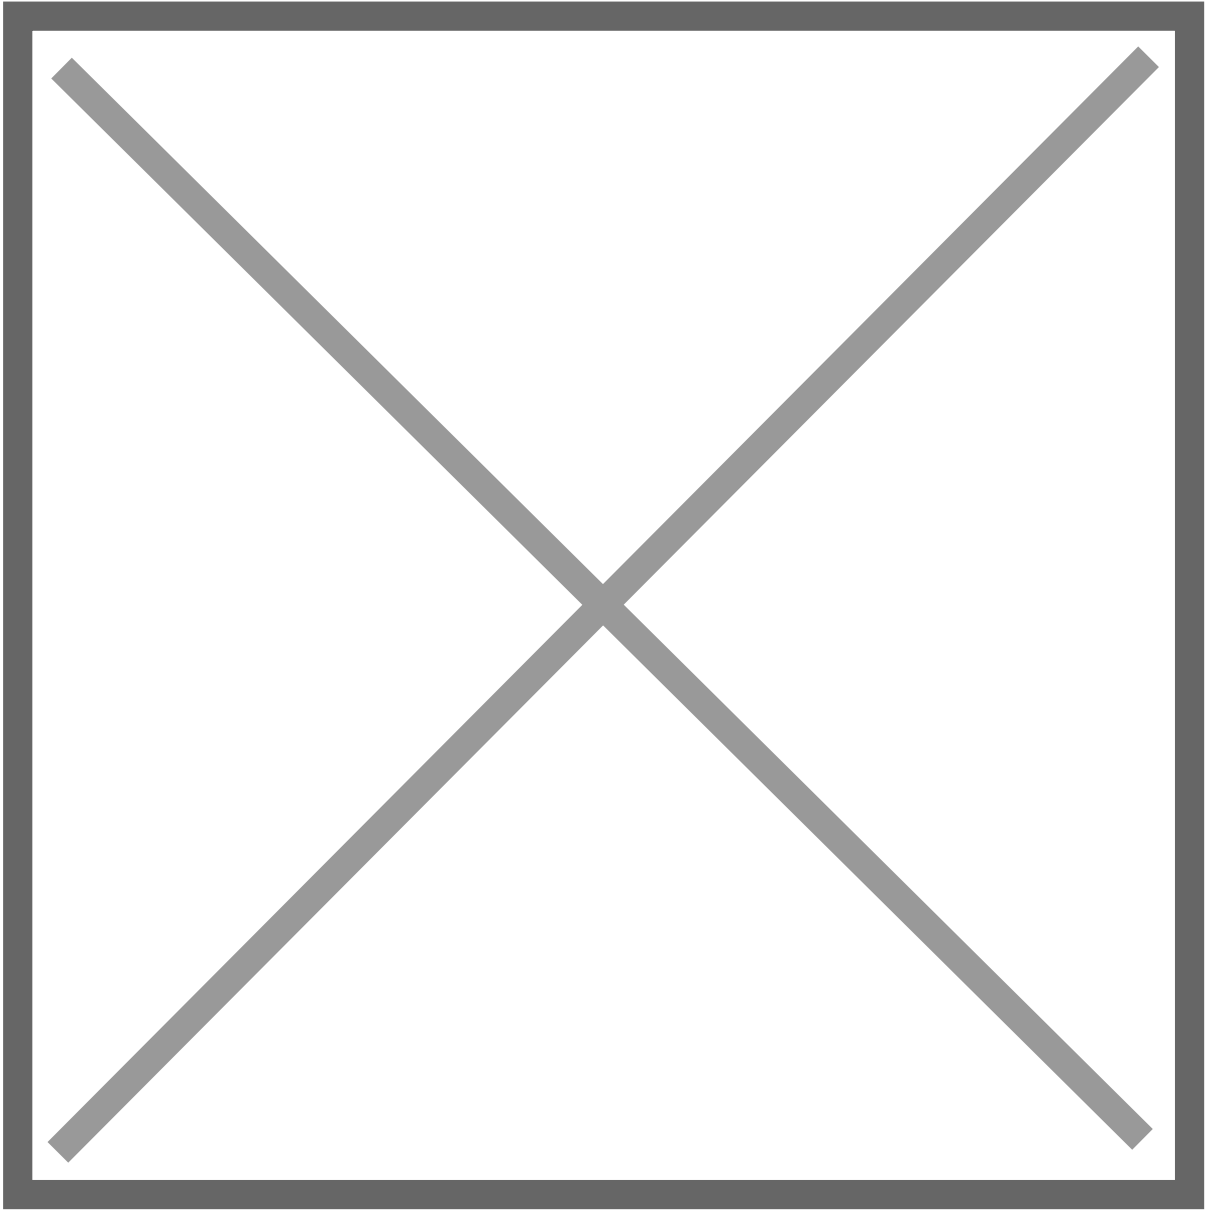

Ejemplo (Test version beta): [Power BI app report \(beta\) on Dynamics 365 Business Central telemetry in Azure Application Insights \(Dynamics 365 Business Central telemetry app\)](#)

Ya es posible conectar PowerBI con Business central mediante la API, para hacerlo se debe recoger desde PowerBI:

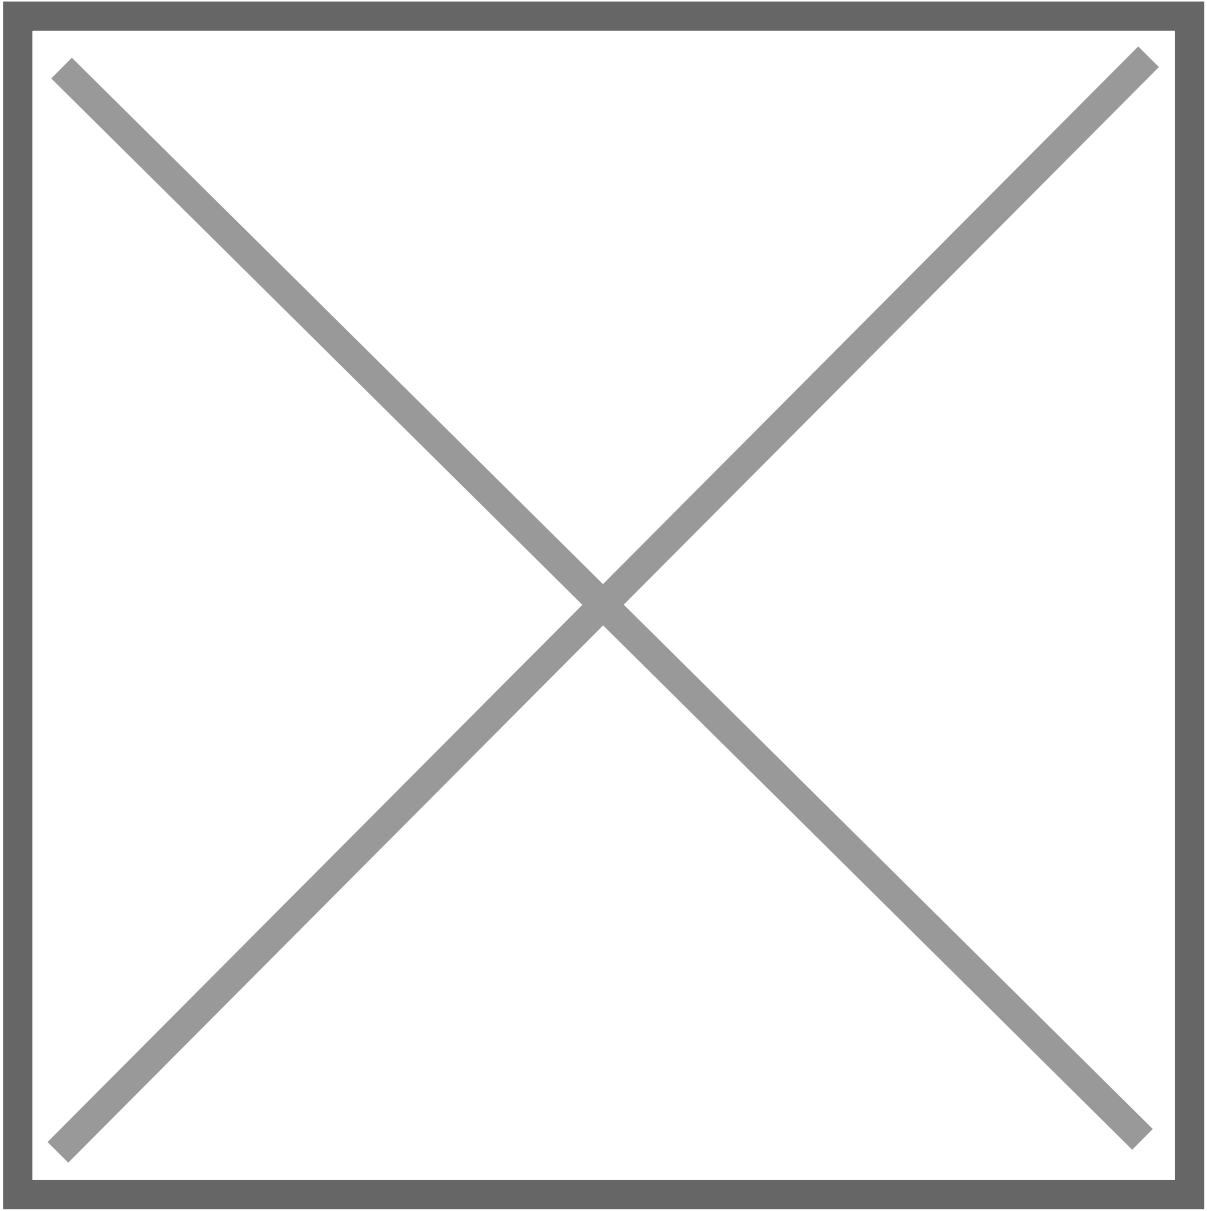

Una vez conectada permite consultar información útil
