

# Registro de la aplicación

Antes de poder utilizar la aplicación debe registrarla. A partir del momento del registro tendrá un mes de uso sin coste para poder probarla.

Para registrar la aplicación, abra la página "DNS Updater" y verá un mensaje en la parte de arriba indicando que debe registrar la extensión.

The screenshot shows the 'DNS Updater' interface. At the top, there is a navigation bar with a back arrow, the title 'DNS Updater', and several action icons (edit, share, add, delete, bookmark, refresh, link). Below the title, a light blue notification banner reads: 'X You have to register Extension for "Dynasoft DNS Updater". Go to Extension info'. Underneath, there is a menu with 'Update DNS', 'Show Activity Logs', 'Actions', 'Automate', and 'Fewer options'. The main content is divided into two sections: 'General' and 'What's My IP'. The 'General' section displays a table with the following data:

Last Update	11/05/2023 18:29	FQDN	msweua3554t95990466.bc-saas....
IP Address	20.107.238.57	Job Queue Status	The Job Queue Entry is ready, t...

The 'What's My IP' section displays a table with the following data:

My IP	20.107.238.57	Message	<b>DNS is up to date</b>
-------	---------------	---------	--------------------------

Siga el enlace de "Ir a la información de la extensión" y registre la extensión:
